April, CEO of Ablaze Ent., born and raised in Charleston, ScC, started modeling and promoting for Geechee One Magazine in 2006. Landing her first print in the 2007 Geechee One Calendar as Mrs. September, April then took her modeling career to the next level. In 2007, she then started her own modeling and promotion company, along with two other models, called Ablaze Ent. Her company became well known for modeling and promoting local artists and events. The summer of 2007, Ablaze Ent. met up with platinum recording group, Nappy Root. Signing Nappy Roots as there first clients, doors rapidly opened for her company within only months time. Ablaze Ent started touring with the group throughout the United States. Along the way they were introduced to and began promoting for Crime Mob, Georgia Gurlz, and several other well known industry artists. In 2008, April continues to model and promote for magazines, videos and events. She sets goals and standards for herself, to become a new trend that opens doors to opportunities for up coming artists and models.
